ACHE OF NORTH TEXAS Category I Education Session

Career Positioning-Proactively Managing Your Professional Development 7:30a.m. to 9:00 a.m.

Program Description: What does it take to manage and develop your career? Today's healthcare professionals must continue to build career momentum through seeking professional development opportunities. How should I manage the transition from being a student to being a professional if my goal is to become an administrator? What personal characteristics and professional background are needed to make a successful transition from managing in a health services organization to becoming a management consultant? What can I expect from an executive recruiter? This ACHE session brings together a well recognized and accomplished panel of healthcare veterans. A Career Fair will follow the event which will consist of local healthcare companies offering information about their companies and recruiting processes.

Attendees will have an opportunity to ask our panelists their own questions.
